

Are you tired of dealing with the complexities of warranty processes?

## Say hello to Warranty Dynamics

the ultimate SaaS solution that automates the entire warranty journey, from claim submission to seamless renewals. Get ready to reduce costs, boost revenue, and exceed customer expectations!

### Key Features of Warranty Dynamics

01

#### Effortless Warranty Tracking

Track, view, and modify service contracts and warranties effortlessly, ensuring complete control and transparency

02

#### Automated Renewals

Say goodbye to manual renewals! Warranty Dynamics manages automatic service warranty and contract renewals, saving you time and effort.

03

#### Automated Entitlement Verification

Seamlessly verify location, product, contact, and service records for a smooth claims experience

04

#### Instant Entitlement Check

Verify entitlements instantly using your mobile device, streamlining the verification process and enhancing efficiency.

05

#### Barcode-Enabled Efficiency

Handle large volumes with ease! Our barcode-enabled receipts, moves, shipments, and batch entitlement checks simplify operations

06

#### Revision History Maintenance

Keep records up-to-date! Warranty Dynamics maintains a detailed history of parts prices, labor rates, and labor hours for accurate data

07

#### Claim Forwarding

Collaborate seamlessly! Allow executives to review and approve claims efficiently with our Claim Forwarding feature

08

#### Support for Metered Services

Warranty Dynamics supports metered services, ensuring transparent entitlement management
